SHAKER CRAFTSMAN DOORS

DRS1K80 & DRS2K80

AVAILABLE HEIGHTS 8'0"
AVAILABLE WIDTHS* 2'8", 2'10", 3'0"

Plastpro's Craftsman Series Shaker Doors are now available in an 8/0 height, blending our advanced, fiberglass exterior with traditional, Shaker-style elements and luxurious sizing. Based on the clean lines and simple designs seen in 19th-century Shaker furniture and architecture, our Shaker models provide an updated take on a timeless classic. Enjoy the weatherproof benefits of our durable, advanced HydroShield Technology and grand, modern sizes in this beautiful design.

These doors feature simple, elegant lines and offer the selection of a square framed 1 or 2 panel design. Our 8/0 Shaker models are available in a minimal, Smooth skin and in 2/8, 2/10, and 3/0 widths.

FEATURES & BENEFITS

- 1. FIBERGLASS REINFORCED DOOR SKIN**
 Our exclusive formula is measured precisely to ensure each skin is produced to the highest quality. We offer many stunning design options, and customized panel configurations are possible. The skins require little maintenance and will not splinter, dent, warp, rot, or rust. Choose a door skin from a variety of grains that can be painted or stained.
- 2. FULL-LENGTH COMPOSITE STILES**
 Our full-length, composite stiles protect the door from external moisture to prevent warping or rotting. They have twice the screw-holding strength of wood.
- 3. COMPOSITE TOP & BOTTOM RAILS**
 High-strength, composite top and bottom rails prevent moisture from seeping into the door and stop the buildup of mold.
- 4. EXTENDED LOCKBLOCK**
 Plastpro's full-length LVL allows any type of lock to be placed for increased security. Our 8/0 doors have a steel bar in addition to the LVL to help increase the structure's rigidity.
- 5. POLYURETHANE FOAM CORE**
 Our advanced, CFC-free, high-density, polyurethane foam core enhances the door's soundproofing capabilities and provides insulation up to six times greater than wood doors.

*2'10" is a non-stocking width and requires extended lead time.
