Fire, one of the four elements is an important part of our world. However, its flames have the potential to cause severe physical damage. Fires not only have a negative impact on the environment, they also impact the lives of people and their property. It is essential to have the best and safest products to protect you and your loved ones around this element.

To minimize the severity of a fire, our Plastpro Fire Rated Doors are extremely durable. Made with fire-resistant composite, our doors are tested and comply with safety and performance standards to withstand fire for a minimum of 20 minutes. Certain models are available to hold off fire for 60 and 90 minutes. Our doors add extra protection to your home without ever sacrificing style.

**EXTENDED LOCKBLOCK**
The full length LVL increases the rigidity of the door.

**FIRE RETARDANT COMPOSITE**
Our HFO Polyurethane fire rated foam system is specially formulated to withstand fire.

**FULL LENGTH COMPOSITE STILES**
Our full-length composite stiles protect the door from external exposure.

**PLASTPRO® EXCLUSIVE SMC SKIN**
Our skin material is specially formulated and comes in various panel configurations.

**COMPOSITE BOTTOM RAIL**
High strength rails prevent moisture from seeping into the door.

**TESTING RESULTS**
Our 20 minute Fire Rated doors are tested for single swing fiberglass doors. Tests are done to multiple standards and bear the Warnock Hersey Mark of product safety, performance, and quality.

PF™ DOOR JAMBS

Our exclusive PF™ Door Jambs add needed protection for your entry units. Also made with fire retardant composite, Plastpro Poly-Fiber Jambs are tested and certified to withstand fire for 20 minutes. Complete your protection by fitting your fiberglass door with PF™ Door Jambs.

FEATURES & BENEFITS

- Equipped with HydroShield technology, it will not absorb or wick moisture, and prevents warping, rotting, and splitting.
- Frame is not able to be infested with termites at any point along the structure.
- More versatility in design. Available in various lengths and widths that can be stained as well as painted.
- Has twice the screw holding power of traditional wood door frames.

FRAME DECAY COMPARISON

PLASTPRO PF™ DOOR JAMB

*with Hydroshield Technology™

TRADITIONAL WOOD FRAME

Susceptible to rotting, warping and decay
