

DOORLITE SERIES

A beautifully designed entryway helps set the stage for the rest of the home and creates a welcoming passage from public space to private abode. Nothing accompanies that transition better than our exclusive glass designs, which improve the look and value of the home.

Our doorlites are composed of a piece of decorative glass sealed between two pieces of tempered safety glass that provides exceptional security, soundproofing, and thermal performance. The state-of-the-art Warm Edge spacer system provides a seal that protects and insulates the door and home for years to come. Unlike the competition, our metal coming includes a gasket that cushions and protects the glass from chipping, cracking, and rattling during door movement.
